JALANDHAR BASTI PAU

(April Edition 2024)

We believe that each child at our school is a unique individual with a variety of talents and learning needs. We help students see themselves as citizens of a global community. Students learn ethical values, communication, and other life skills. They are also encouraged to be good, do good, and be one. Our school was established with the goal of offering an excellent, holistic education and "Creating Generations of Peacemakers." We strive to uphold the school's motto. The day starts with school-wide meditation, which increases students' concentration power and taps into their soul's inner peace.
